Dear County Commissioners,

I am so very disappointed in you all. If it were possible I would recommend that the lot of you be fired or impeached for just being plain stupid, since that is not going to happen and you know it you continue to slowly destroy this county bit by bit by not taking advantage of a very good offer from a developer who is willing to put his money where his mouth is unlike any of you. As a citizen I am so very tired of all of your self serving agendas that do nothing but cost me and other tax payers money. Just once, just ONCE I would like to see you ALL sit down and truly work for the GOOD of Ravalli County and the tax payers instead of you selves. You all truly represent what armature politics looks like, now of you have a clue how to run government and you all continue to make Ravalli County look like it is being run by the Three Stooges. I only wish is that you all would actually read this and try to really work together and do something right.
